

6<sup>th</sup> Asian and Oceanian Parkinson's Disease and Movement Disorders Congress *April 12-14, 2019 • Hangzhou* 

# Program-At-A-Glance

#### Dear Colleagues,

The International Parkinson and Movement Disorder Society (MDS) and the MDS Asian and Oceanic Section (MDS-AOS) warmly invite you to attend 6th Asian and Oceanian Parkinson's Disease and Movement Disorders Congress (AOPMC), April 12-14, 2019 in Hangzhou.

The AOPMC occurs every two years as a forum to further develop the field of Movement Disorders in the region. Please join us to facilitate communication between clinicians and researchers in the region, disseminate updated knowledge about movement disorders, improve quality of life and independence of movement disorders patients and caregivers, promote research and facilitate research collaborations in movement disorders and expose clinicians, researchers and healthcare professionals in the region to movement disorders initiatives.

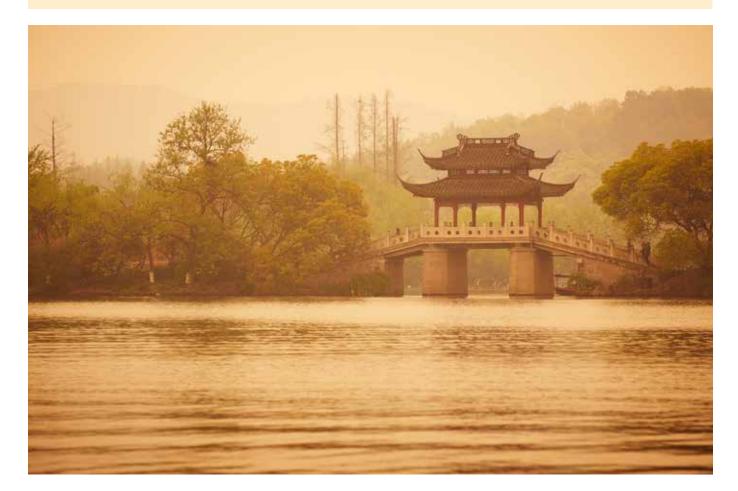

We look forward to welcoming you to Hangzhou in April 2019.

Baorong Zhang Chair, 6th AOPMC Scientific Program Committee and Chair, 6th AOPMC Local Organizing Committee

**Beomseok Jeon** Chair, 6th AOPMC Oversight Committee and Chair, MDS-AOS, 2017-2019

### AOPMC Schedule-At-A-Glance

	Friday, April 12	Saturday, April 13		Sunday, April 14	
8:00					
8:30		Plenary Session 8:00-9:30		MDS-AOS Lectureship Awards 8:00-9:30

able to:	the nathogonacie of hereditary starting and here to the		the under-recognized motor and non-motor symptoms	
	the pathogenesis of hereditary ataxia and how to treat the genotype-phenotype correlation		nson's disease and Parkinson plus syndrome	

- 2. Describe extra-cerebellar signs and symptoms in spinocerebellar ataxias
- 3. Describe atypical presentation of well-known genetic dystonia

2205	Parallel Session
	Focusing on New Targets for Therapy in Movement Disorders
<b>.</b> .	14:30 - 16:00
Chairs:	Simon Lewis, Sydney
14:30	The New Frontier – Disease Modification for Parkinson's Disease
	Nobutaka Hattori, <i>Tokyo</i>
15:00	Advances in the Understanding and Treatment of Channelopathies Chon-Haw Tsai, <i>Taichung</i>
15:30	New Horizons for Botulinum Injections in Movement Disorders
	Raymond Rosales, <i>Quezon City</i> lusion of this session, participants should be better
Parkinso 2. Summar channel 3. Discuss t	the landscape of disease modifying therapies in n's disease ize the pathomechanism and emerging treatment of opathies he expanding role of botulinum toxin injection for the nt of movement disorders
2306	Parallel Session
	Hot Topics in Parkinson's Disease Non-Motor Symptoms 16:30 - 18:00
Chairs:	Chunfeng Liu, Suzhou
16:30	Treatment of Sleep Disorders in Parkinson's Disease Jawad Bajwa, <i>Riyadh</i>
17:00	Neuropsychiatric Symptoms in Parkinson's Disease Jee-Young Lee, <i>Seoul</i>
17:30	Bladder and Sexual Dysfunction in Parkinson's Disease Priya Jagota, <i>Bangkok</i>
At the conc	lusion of this session, participants should be better
able to:	
	he presentation and management of sleep disorders in n's disease
	he presentation and management of neuronsuchistric

- 2. Discuss the presentation and management of neuropsychiatric symptoms in Parkinson's disease
- 3. Discuss the pathophysiology and management of bladder and sexual dysfunction in Parkinson's disease

3. Identify the treatable ataxia

### Saturday, April 13, 2019

system and clinical implication in Parkinson's disease

3101	Plenary Session	
	MDS-AOS Lectureship Awards 8:00 - 9:30	At the conc able to: 1. Describe for Parki
8:00	Philip Thompson Lecture Shengdi Chen, <i>Shanghai</i>	2. Discuss and oth
8:30	Yoshikuni Mizuno Lecture Ruey-Meei Wu, <i>Taipei</i>	Parkinso 3. Identify Parkinso
3102	Plenary Session	3203
	Comprehensive Management of Parkinson's Disease 10:00 - 11:30	
Chairs:	Günther Deuschl, <i>Kiel</i> Xinhuan Wan, <i>Beijing</i>	Chairs:
10:00	Evidence-Based Management of Parkinson's Disease Shen-Yang Lim, <i>Petaling Jaya</i>	14:30
10:30	Management of Parkinson's Disease: A Non-Pharmacological Perspective Louis Tan, <i>Singapore</i>	15:00
11:00	Palliative Care for Parkinsonian Disorders: Why and How?	15:30

Vinay Goyal, New Delhi

ne conclusion of this session, participants should be better to:

- Describe the pharmacological and surgical therapeutic options or Parkinson's disease from an evidence-based perspective
- iscuss physical exercise, speech therapy, occupational therapy nd other non-pharmacological management strategies for arkinson's disease
- lentify the principles of a palliative care approach to managing arkinson's disease and related conditions

3203	Parallel Session		
	Gastrointestinal Dysfunction, Weight Loss and Nutritional Aspects in Parkinson's Disease		
Chairs:	<b>14:30 - 16:00</b> Yun Kim, <i>Seoul</i> Lijuan Wang, <i>Guangzhou</i>		
14:30	Gastrointestinal Dysfunction in Parkinson's Disease Ai Huey Tan, <i>Kuala Lumpur</i>		
15:00	Gastrointestinal Infections and Microbiome in Parkinson's Disease Qin Xiao, <i>Shanghai</i>		
15:30	Weight Loss and Nutrition in Parkinson's Disease, and Management Strategies Yasuyuki Okuma, <i>Izunokuni</i>		

At the conclusion of this session, participants should be better able to:

- 1. Review aspects of gastrointestinal dysfunction in Parkinson's disease
- 2. Discuss the role of gastrointestinal infections and microbiome in Parkinson's disease
- 3. Review causes of weight loss and management strategies in Parkinson's disease

#### 3204 **Parallel Session**

	Clinical Diagnostic Pointers in Making a Diagnosis of a Movement Disorder Condition
	14:30 - 16:00
Chairs:	Shen-Yang Lim, Petaling Jaya
	Yiming Liu, Shandong
14:30	Differential Diagnosis of Parkinsonian Disorders
	Baorong Zhang, <i>Hangzhou</i>
15:00	Phenomenology of Hyperkinetic Movement Disorders
	Thien Thien Lim, <i>Tanjung Bunga</i>
15:30	Diagnosis of Functional Movement Disorders
	Oscar Gershanik, Buenos Aires
able to:	sion of this session, participants should be better atures that distinguish the different parkinsonian
syndrome	
2. Categorize diagnoses	hyperkinesia and list appropriate differential

3. Recognize characteristics of functional movement disorders

STN-DBS for Parkinson's

3307

Chairs:

16:30

17:00

17:30

able to:

Parkinsonism

**Parallel Session** 

**Hydrocephalus** 

Asha Kishore, Trivandrum

Qing Wang, Guangzou

Management

Concepts

Arlene Ng, Quezon City

Hirohisa Watanabe, Nagoya

1. Discuss the spectrum and management of stroke induced movement disorders and strategic lesion locations

2. Discuss the evolving pathogenetic concepts and clinical application of small vessel disease and parkinsonism 3. Identify the optimal balance between medical and surgical management and the clinical complexity of Hydrocephalus and

16:30 - 18:00

**Parallel Session** 

3205

3. Identify the clinical signs as a phenotypic biomarker

International Parkinson and Movement Disorder Society Asian & Oceanian Section

3306	Parallel Session
	Defrosting Parkinson's
	Disease: Understanding and
	Managing Freezing of Gait
	and Falls
	16:30 - 18:00
Chairs:	Weidong Le, <i>Dalian</i>
	Yasuyuki Okuma, <i>Izunokuni</i>
16:30	The Clinical Manifestations and
	Impacts of Gait Disturbance,
	Freezing and Falls in Parkinson's
	Disease
	Sue Lord, Auckland
17:00	Unlocking the Phenomenology of
	Freezing with Novel Investigative
	Techniques
	Mac China North Duda
	Mac Shine, <i>North Ryde</i>
17:30	Treating Freezing and Falls - Strategies Old and New

### TBA

At the conclusion of this session, participants should be better able to:

- 1. Recall the clinical associations of freezing of gait and falls in Parkinson's disease
- 2. Appreciate the pathophysiology underlying gait disorder in Parkinson's disease
- 3. Summarize the current strategies to reduce freezing and falls in Parkinson's disease
