

6<sup>th</sup> Asian and Oceanian Parkinson's Disease and Movement Disorders Congress *April 12-14, 2019 • Hangzhou* 

# Program-At-A-Glance

#### Dear Colleagues,

The International Parkinson and Movement Disorder Society (MDS) and the MDS Asian and Oceanic Section (MDS-AOS) warmly invite you to attend 6th Asian and Oceanian Parkinson's Disease and Movement Disorders Congress (AOPMC), April 12-14, 2019 in Hangzhou.

The AOPMC occurs every two years as a forum to further develop the field of Movement Disorders in the region. Please join us to facilitate communication between clinicians and researchers in the region, disseminate updated knowledge about movement disorders, improve quality of life and independence of movement disorders patients and caregivers, promote research and facilitate research collaborations in movement disorders and expose clinicians, researchers and healthcare professionals in the region to movement disorders initiatives.

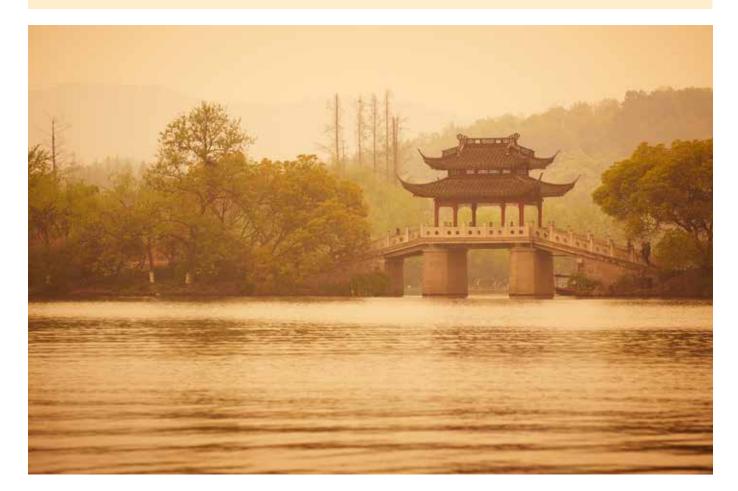

We look forward to welcoming you to Hangzhou in April 2019.

Baorong Zhang Chair, 6th AOPMC Scientific Program Committee and Chair, 6th AOPMC Local Organizing Committee

**Beomseok Jeon** Chair, 6th AOPMC Oversight Committee and Chair, MDS-AOS, 2017-2019

## AOPMC Schedule-At-A-Glance

	Friday, April 12	Saturday, April 13		Sunday, April 14	
8:00

2101	Plenary Session	2203	Parallel Session
	Specific Movement Disorders		Preclinical and Prodromal
in the Asian-Oceanian			Parkinson's Disease: Past,
	Region: Historical and Recent		Present and Future
	Developments		14:30 - 16:00
	8:00 - 9:30	Chairs:	Louis Tan, Singapore
Chairs:	Haibo Chen <i>, Beijing</i>		Zhenfu Wang, <i>Beijing</i>
	Beomseok Jeon, <i>Seoul</i>	14:30	Pathophysiology of Parkinson's
8:00	X-linked Dystonia Parkinsonism: A		Disease Combin Surg Contraction
	Filipino Disease, A Global Effort	45.00	Carolyn Sue, <i>Sydney</i>
	Roland Dominic Jamora, <i>Manila</i>	15:00	Clinical Biomarkers of Parkinson's Disease
8:30	Amyotrophic Lateral Sclerosis/		Jing Zhang, Seattle
	Parkinsonism Dementia Complex in the Kii Peninsula	15:30	Is Diagnosis of Prodromal
	Yasumasa Kokubo, <i>Tsu City</i>	15.50	Parkinson's Disease Feasible?
9:00	Paroxysmal Dyskinesia and		Anthony Lang, Toronto
2.00	Genetics with Focus on PRRT2	At the conc	lusion of this session, participants should be better
	Zhi-Ying Wu, <i>Hangzhou</i>	able to:	
At the conc	lusion of this session, participants should be better		the recent progress in the understanding of
able to:			nesis of Parkinson's disease
-	ze the new developments in the diagnosis and		the range of clinical markers and their application in ng Parkinson's disease including prodromal stage
5	ment of X-linked dystonia parkinsonism	,	e our understanding of the progression of Parkinson's
z. Recognit	ze the recent developments in the field of ALS/PDC in eninsula	2	from the prodromal stage
3. Discuss t	the development in the genetics of paroxysmal	2204	Parallel Session
dyskines	sias with special focus on PRRT2		Unfamiliar Symptoms in
2102	Plenary Session		Familiar Movement Disorders
	Genotype-Phenotype		14:30 - 16:00
	Correlation in Ataxia: An	Chairs:	Shengdi Chen, Shanghai
	Asian Perspective	chuirs.	Pramod Pal, <i>Bengaluru</i>
	10:00 - 11:30	14:30	Under-Recognized Motor
Chairs:		14.50	and Non-Motor Symptoms in
Cildiis.	Chon-Haw Tsai, <i>Taichung</i> Hirohisa Watanabe <i>, Nagoya</i>		Parkinson's Disease and Parkinson
10:00			Plus Syndrome
10:00	The Pathogenesis of Hereditary Ataxia and the Treatment		Piu Chan, <i>Beijing</i>
	Strategy	15:00	Extra-Cerebellar Signs and
	Kinya Ishikawa <i>, Tokyo</i>		Symptoms in Spinocerebellar
10:30	Genotype-Phenotype Correlation		Ataxias
	in Ataxia		Jin Whan Cho, <i>Seoul</i>
	Han-Joon Kim, Seoul	15:30	Atypical Presentation of Genetic
11:00	Treatable Ataxia, Not-to-Miss		Dystonia
	Yih-Ru Wu, <i>Taipei</i>		Victor Fung, Sydney
At the conc	lusion of this session, participants should be better	At the conc able to:	lusion of this session, participants should be better
able to: 1. Explain the pathogenesis of hereditary ataxia and how to treat		1. Identify the under-recognized motor and non-motor symptoms	
2. Describe the genotype-phenotype correlation		in Parkinson's disease and Parkinson plus syndrome 2. Describe extra-cerebellar signs and symptoms in	

spinocerebellar ataxias

3. Identify the treatable ataxia

symptoms in Parkinson's disease 3. Describe atypical presentation of well-known genetic dystonia 3. Discuss the pathophysiology and management of bladder and sexual dysfunction in Parkinson's disease

Parkinson's disease

2205

Chairs:

14:30

15:00

15:30

able to:

2306

Chairs:

16:30

17:00

17:30

able to:

Parkinson's disease

channelopathies

treatment of movement disorders

**Parallel Session** 

Disorders 14:30 - 16:00

Disease

Simon Lewis, Sydney Zhen-Xin Zhang, Beijing

Nobutaka Hattori, Tokyo

and Treatment of Channelopathies Chon-Haw Tsai, Taichung

**Focusing on New Targets** for Therapy in Movement

The New Frontier – Disease Modification for Parkinson's

Advances in the Understanding

New Horizons for Botulinum Injections in Movement Disorders

Raymond Rosales, Quezon City At the conclusion of this session, participants should be better

1. Describe the landscape of disease modifying therapies in

2. Summarize the pathomechanism and emerging treatment of

3. Discuss the expanding role of botulinum toxin injection for the

Hot Topics in Parkinson's **Disease Non-Motor** 

Treatment of Sleep Disorders in

Neuropsychiatric Symptoms in

Bladder and Sexual Dysfunction

**Parallel Session** 

**Symptoms** 16:30 - 18:00

Chufeng Liu, Suzhou Jian Wang, Shanghai

Parkinson's Disease Jawad Bajwa, Riyadh

Parkinson's Disease Jee-Young Lee, Seoul

in Parkinson's Disease Priya Jagota, Bangkok At the conclusion of this session, participants should be better

1. Discuss the presentation and management of sleep disorders in

2. Discuss the presentation and management of neuropsychiatric

## Saturday, April 13, 2019

2307	Parallel Session	2308
	Nondopaminergic System in Parkinson's Disease	
	16:30 - 18:00	Chairs:
Chairs:	Oscar Gershanik, Buenos Aires	
	Baorong Zhang, <i>Hangzhou</i>	16:30
16:30	Norepinephrine and Parkinson's Disease	
	Eng-King Tan, <i>Singapore</i>	
17:00	Serotonin and Parkinson's Disease Pingyi Xu, <i>Guangzhou</i>	17:00
17:30	Acetylcholine and Parkinson's Disease	17.20
	Chin-Hsien Lin <i>, Taipei</i>	17:30
able to:	lusion of this session, participants should be better	
1. Understa	and the neuroanatomy and physiology of	

- 1. Understand the neuroanatomy and physiology of norepinephrine and clinical implication in Parkinson's disease
- 2. Understand the neuroanatomy and physiology of serotonin and clinical implication in Parkinson's disease
- 3. Understand the neuroanatomy and physiology of acetylcholine system and clinical implication in Parkinson's disease

## At the conclusion of this session, participants should be better able to:

**Parallel Session** 

16:30 - 18:00

Huifang Shang, ChengDu

Thomas Kimber, Adelaide

Clinical Practice

Chorea

Hrishikesh Kumar, Kolkata

Update on Genetics and

New Treatment Strategies in Huntington's Disease and Other

Molecular Imaging in Huntington's Disease Thomas Kimber, Adelaide

Hitoshi Okazawa, Tokyo

Chorea in Clinical Practice

The Most Frequent Forms of

Genetic and Acquired Chorea in

- 1. Describe the pharmacological and surgical therapeutic options for Parkinson's disease from an evidence-based perspective
- Discuss physical exercise, speech therapy, occupational therapy and other non-pharmacological management strategies for Parkinson's disease
- 3. Identify the principles of a palliative care approach to managing Parkinson's disease and related conditions

#### 3203 **Parallel Session** Gastrointestinal Dysfunction, Weight Loss and Nutritional Aspects in Parkinson's Disease 14:30 - 16:00 Chairs: Yun Kim, Seoul Lijuan Wang, Guangzhou 14:30 Gastrointestinal Dysfunction in Parkinson's Disease Ai Huey Tan, Kuala Lumpur 15:00 **Gastrointestinal Infections** and Microbiome in Parkinson's Disease Qin Xiao, Shanghai 15:30 Weight Loss and Nutrition in Parkinson's Disease, and Management Strategies Yasuyuki Okuma, Izunokuni

At the conclusion of this session, participants should be better able to:

- Recognize the phenomenology of Huntington's disease and other disorders (Huntington's disease-like syndromes) in which chorea is the main clinical feature
- Recognize recent developments in genetics of Huntington's disease and identify a comprehensive view of molecular imaging biomarkers to study Huntington's disease
- Define the latest pharmaceutical and surgical treatment in Huntington's disease and other chorea

#### **Video Tournament**

	18:30 - 20:30
	This interactive tournament will challenge
	participants to improve diagnostic skills with
	unique and interesting cases.
Hosts:	Victor Fung, Sydney
	Anthony Lang, <i>Toronto</i>

#### At the conclusion of this session, participants should be better able to:

- 1. Review aspects of gastrointestinal dysfunction in Parkinson's disease
- 2. Discuss the role of gastrointestinal infections and microbiome in Parkinson's disease
- 3. Review causes of weight loss and management strategies in Parkinson's disease

#### 3204 Parallel Session

	Clinical Diagnostic Pointers in Making a Diagnosis of a Movement Disorder	
	Condition	
Chairs:	<b>14:30 - 16:00</b> Shen-Yang Lim, <i>Petaling Jaya</i> Yiming Liu, <i>Shandong</i>	
14:30	Differential Diagnosis of Parkinsonian Disorders Baorong Zhang, <i>Hangzhou</i>	
15:00	Phenomenology of Hyperkinetic Movement Disorders Thien Thien Lim, <i>Tanjung Bunga</i>	
15:30	Diagnosis of Functional Movement Disorders Oscar Gershanik, <i>Buenos Aires</i>	
At the conclusion of this session, participants should be better able to: 1. Explain features that distinguish the different parkinsonian		
syndromes		

- 2. Categorize hyperkinesia and list appropriate differential diagnoses
- 3. Recognize characteristics of functional movement disorders

Strategies Old and New

1. Recall the clinical associations of freezing of gait and falls in

2. Appreciate the pathophysiology underlying gait disorder in

3. Summarize the current strategies to reduce freezing and falls in

Vincent Mok, Hong Kong At the conclusion of this session, participants should be better

able to:

Parkinson's disease

Parkinson's disease

Parkinson's disease

Sun	day, April 14, 2019		
3205	Parallel Session	3307	Parallel Session
	STN-DBS for Parkinson's		Movement Disorders in
	Disease at an Earlier Stage		Vascular Diseases and
	14:30 - 16:00		Hydrocephalus
Chairs:	Vincent Mok, Hong Kong	Chaine	16:30 - 18:00
14:30	Chon-Haw Tsai, <i>Taichung</i> Knowledge, Attitude and	Chairs:	Asha Kishore, <i>Trivandrum</i> Qing Wang, <i>Guangzou</i>
14.30	Parkinson's Disease and Their	16:30	Stroke Induced Movement
	Caregivers	10100	Disorders – Spectrum and
	Pramod Pal, <i>Bengaluru</i>		Management
15:00	Non-Motor Issues in DBS:		Arlene Ng, <i>Quezon City</i>
	Neuropsychiatric Effects and Long Term Outcome	17:00	Small Vessel Disease and Parkinsonism – Evolving
	Young Eun Kim, Anyang		Concepts
15:30	How Early STIM Study Changes		Hirohisa Watanabe, <i>Nagoya</i>
	Selection Criteria	17:30	Hydrocephalus and Parkinsonism
	Günther Deuschl, <i>Kiel</i>		<ul> <li>Manifestation and Management</li> </ul>
At the concl able to:	usion of this session, participants should be better		Rupam Borgohain, Hyderabad
	he patient perspective of neuromodulation	At the conc able to:	lusion of this session, participants should be better
	the neuropsychiatric effects and long term outcome of odulation		the spectrum and management of stroke induced
	he recent data on early STIM study and how it may		ent disorders and strategic lesion locations the evolving pathogenetic concepts and clinical
change p	batient selection	applicat	ion of small vessel disease and parkinsonism
3306	Parallel Session		the optimal balance between medical and surgical ment and the clinical complexity of Hydrocephalus and
	Defrosting Parkinson's	Parkinso	
	Disease: Understanding and		
	Managing Freezing of Gait		
	and Falls		
Chairs:	<b>16:30 - 18:00</b> Weidong Le, <i>Dalian</i>		
chuirs.	Yasuyuki Okuma, <i>Izunokuni</i>		
16:30	The Clinical Manifestations and		
	Impacts of Gait Disturbance,		
	Freezing and Falls in Parkinson's Disease		
	Sue Lord, Auckland		
17:00	Unlocking the Phenomenology of		
	Freezing with Novel Investigative		
	Techniques		
17.20	Elie Matar, <i>Sydney</i>		
17:30	Treating Freezing and Falls -		

3308	Parallel Session
	Biomarkers for Parkinson's Disease
Chairs:	<b>16:30 - 18:00</b> Nobutaka Hattori, <i>Tokyo</i>
	Ruey-Meei Wu, <i>Taipei</i>
16:30	New Biomarkers for Parkinson's Disease
	Shinji Saiki, <i>Tokyo</i>
17:00	Neuroimaging Biomarkers for Parkinson's Disease
	Jong-Min Kim, <i>Seongnam</i>
17:30	Clinical Biomarkers for Parkinson's Disease
	Roongroj Bhidayasiri <i>, Bangkok</i>
At the concl	usion of this session, participants should be better
able to:	
	netabolome as a biomarker
2. Discuss n	ieuroimaging as a clinical marker

International Parkinson and Movement Disorder Society Asian & Oceanian Section

3. Identify the clinical signs as a phenotypic biomarker
