AOPMC OVERVIEW

The 7th Asian and Oceanian Parkinson's Disease and Movement Disorders Congress will take place virtually June 4-6, 2021. Further information is available at <u>www.aopmc.org</u>.

About the AOPMC

The Asian and Oceanian Parkinson's Disease and Movement Disorders Congress (AOPMC) occurs every two years as a forum to further develop the field of Movement Disorders in the region. Previous Congresses have been held in the following countries or regions:

- China (2019)
- Philippines (2016)
- Thailand (2014)

- Taiwan (2011)
- India (2009)
- Singapore (2007)

Purpose

The purpose of the AOPMC is consistent with the objectives of the MDS-AOS, which include:

- Facilitate communication between clinicians and researchers in the region
- Disseminate updated knowledge about Movement Disorders
- Improve quality of life and independence of Movement Disorders patients and caregivers
- Promote research and facilitate research collaborations in Movement Disorders
- Expose clinicians, researchers and healthcare professionals in the region to Movement Disorders initiatives and in so doing, encourage their membership in the MDS-AOS

Target Audience

The target audience of the 7th AOPMC is clinicians, researchers, and healthcare professionals from the region, including those who have not had the opportunity to attend an International Congress. Among these participants will be many key opinion leaders and movement disorders specialists from the Region. We anticipate 2,000+ delegates from throughout the Region.

Scientific Program

The scientific program covers the whole spectrum of Parkinson's disease and movement disorders from basic science to clinical practice and consists of symposia, plenary sessions, poster presentations and parallel sessions. Participants will be invited to submit abstracts relevant to the various fields associated with Movement Disorders.

Abstract Submissions

Due to the change of date resulting in a shorter timeline, the AOPMC Scientific Program Committee Chairs have decided to replace regular abstracts with a prestigious plenary session dedicated to oral abstract presentations. Submission is open to the MDS-AOS section (members and nonmembers). Abstracts will NOT be published in an MDS journal. 10 abstracts will be selected for oral presentations (five basic science abstracts and five clinical abstracts). From this submission, two will be chosen for Junior Awards. Abstract Submissions will open in February 2021. Details are available at www.aopmc.org.
