

SCIENTIFIC PROGRAM

Day 1: Friday, 25 March 2011

Opening Seminars

08:30-10:00

Opening Seminar I : Management of Early Parkinson's Disease

1. "When" and "How" to Start Treatment?
2. The Role of Levodopa
3. The Role of Dopamine Agonist

Break

10:30-12:30

Opening Seminar II : Management of Advanced Parkinson's Disease

1. Management of Motor Fluctuation and Dyskinesia in PD
2. Optimization of Levodopa Therapy in PD
3. Continuous Delivery of Dopamine Agonist: Clinical Perspectives
4. Management of Non-motor Symptoms

Lunch

Opening Seminars

13:30-15:30

Opening Seminar III : DBS Surgery

1. DBS Surgery in Advanced Parkinson's Disease: An Update
2. What's New on DBS for Dystonia
3. DBS Surgery in Treating Psychiatric Disorder
4. Skills Workshop: Adjusting DBS Stimulation

Break

16:00-17:30

Opening Seminar IV : Botulinum Neurotoxin in Managing Movement Disorders

1. Task-specific Dystonia
2. Treatment of Sialorrhea, Tremor and Other Symptoms with Parkinson's Disease
3. What's New in Botulinum Toxin Therapy for Dystonia

18:00-20:00

Opening Ceremony and Welcome Reception

Day 2: Saturday, 26 March 2011

Plenary Sessions

08:30-10:00

Plenary Session I : Keynote Speech

1. Nature and Progression of PD
2. Etiopathogenesis of PD
3. Imaging in Parkinson's Disease

Break

10:30-12:00

Plenary Session II : Motor Control of Basal Ganglia

1. Pathophysiology of Motor Control in PD: An Update
2. How Do DBS Work in Basal Ganglia?
3. Transcranial Magnetic Stimulation in Movement Disorders

12:10-12:50

Lunch Seminar

1. Non-motor Symptoms of Parkinson's Disease: Pathophysiology and Treatment
2. Botulinum Toxin Therapy for Spasticity

13:00-14:00

Guided Poster Tour I

Parallel Sessions

14:00-15:30

Parallel Session I : Modern Concepts in Non-motor Symptoms of PD

1. Premotor Diagnosis of Parkinson's Disease
2. Sleep Disorders in Parkinson's Disease: An Update
3. Impulsive-compulsive Behaviors in Parkinson's Disease

14:00-15:30

Parallel Session II : Parkinsonian Plus Syndromes and Secondary Parkinsonism

1. Multiple System Atrophy-update in Diagnosis and Etiopathogenesis
2. Progressive Supranuclear Palsy and CBD: Phenotype and Pathogenesis
3. Secondary Parkinsonism: Diagnosis and Management

Break

16:00-17:30

Parallel Session III : Tremors

1. Pathophysiological Mechanisms of Tremor
2. Neuroimaging Study of Tremor
3. Assessment and Management of Tremor

16:00-17:30

Parallel Session IV : Myoclonus

1. Clinical Features of Myoclonus
2. Neurophysiological Assessment of Myoclonus
3. Treatment of Myoclonus

18:30-20:30

Gala Dinner

Day 3: Sunday, 27 March 2011

Plenary Sessions

08:30-10:00

Plenary Session III : Update of Genetics in Parkinson's Disease

1. Familial Parkinsonism: Diagnosis and Pathogenesis
2. Leucine-rich Repeat Kinase 2: Moving from Discovery to Therapeutics
3. Genetic Testing in Movement Disorders: Promises and Limitations

Break

10:30-12:00

Plenary Session IV : Hyperkinetic Movement

1. Dystonia: Diagnosis and Etiopathogenesis
2. Huntington's Disease: Genetics and Molecular Mechanism
3. Tics and Tourette Syndrome: Diagnosis and Management

Lunch

12:10-12:50

Lunch Workshop

Apomorphine Therapy for Advanced PD

13:00-14:00

Guided Poster Tour II

Parallel Sessions

14:00-15:30

Parallel Session V : Movement Disorders in Asia

1. Infectious Causes of Movement Disorders in Asia
2. Epidemiology of Parkinson's Disease in Asia
3. Hereditary Ataxia in Asia

14:00-15:30

Parallel Session VI : Hot Topics in Experimental Therapeutics in PD

1. Novel Pharmacological Approaches for PD
2. Promise of Gene Therapy in PD
3. Cellular Replacement and Stem Cell Therapy in PD

Break

16:00-17:30

Video Session

17:30-17:40

Closing Ceremony
