

<b>Abstract Pub Number</b>	<b>Submission Title</b>	<b>Presentation Date and Time</b>	<b>Submission Track</b>
<b>1</b>	Studies on selected mitochondrial gene expression in an ethnic Indian population of Spinocerebellar ataxia type 12 (SCA12) patients	Saturday, March 18, 12:00 - 13:00	Ataxia
<b>2</b>	A Case Report Of Clinically Correlating And Genetically Proven First Case Of Sca 11 In India	Saturday, March 18, 12:00 - 13:00	Ataxia
<b>3</b>	Presynaptic dopamine dysfunction in SCA12---a study of 10 patients	Saturday, March 18, 12:00 - 13:00	Ataxia
<b>4</b>	An unusual case of ataxia-myoclonus syndrome	Saturday, March 18, 12:00 - 13:00	Ataxia
<b>5</b>	Spinocerebellar Ataxia 27 with Fibroblast Growth Factor 14 (FGF14) gene mutation in a 58 yo Filipino Female: A Case Report	Saturday, March 18, 12:00 - 13:00	Ataxia
<b>6</b>	Clinical, radiological and genetic profile of ataxic presentation of genetically proven POLG-related syndrome	Saturday, March 18, 12:00 - 13:00	Ataxia
<b>7</b>	Genetics and Expression of the PPP2R2B gene in SCA12 patients from India	Saturday, March 18, 12:00 - 13:00	Ataxia
<b>8</b>	Expanding the CANVAS: A rare case from South East Asia	Saturday, March 18, 12:00 - 13:00	Ataxia
<b>9</b>	A patient with lower-ranging expansions of TBP presents with features of dementia with Lewy bodies	Saturday, March 18, 12:00 - 13:00	Ataxia
<b>10</b>	A study of phenotypic spectrum and severity assessment of 29 patients of genetically proven Spinocerebellar Ataxia-12	Saturday, March 18, 12:00 - 13:00	Ataxia
<b>11</b>	Alcohol sensitive tremor in SCA 12	Saturday, March 18, 12:00 - 13:00	Ataxia
<b>12</b>	Non-Motor Manifestations in Spinocerebellar ataxia Type 12	Saturday, March 18, 12:00 - 13:00	Ataxia

<b>13</b>	Study Of Clinico-Demographic Profile Of Various Spinocerebellar Ataxias In A North Indian Tertiary Care Centre	Saturday, March 18, 12:00 - 13:00	Ataxia
<b>14</b>	Chronic Progressive Cerebellar Ataxia With Unexpected Diagnosis	Saturday, March 18, 12:00 - 13:00	Ataxia
<b>15</b>	Mutations affect Stability and Function of Frataxin Protein Altering Disease Progression and Severity in Friedreich's Ataxia: In Silico Approach	Saturday, March 18, 12:00 - 13:00	Ataxia
<b>16</b>	Spinocerebellar ataxia type 14 caused by a de novo mutation in the PRKCG gene: A Case Report	Saturday, March 18, 12:00 - 13:00	Ataxia
<b>17</b>	Acute Hyperkinetic movement disorder and mass lesion in MRI brain: Unusual presentation of SSPE	Saturday, March 18, 12:00 - 13:00	Choreas (Non-Huntington's Disease)
<b>18</b>	A Rare Case of X-linked Movement Disorder	Saturday, March 18, 12:00 - 13:00	Choreas (Non-Huntington's Disease)
<b>19</b>	Diabetic striatopathy presenting with stereotypy and atypical imaging	Saturday, March 18, 12:00 - 13:00	Choreas (Non-Huntington's Disease)
<b>20</b>	Compound heterozygous mutation of the PANK2 gene related generalized dystonia treated with pallidotomy	Saturday, March 18, 12:00 - 13:00	Clinical Trials and Therapy in Movement Disorders
<b>21</b>	Parkinson's Disease and Dance Movement Therapy: A narrative review.	Saturday, March 18, 12:00 - 13:00	Clinical Trials and Therapy in Movement Disorders
<b>22</b>	New and emerging indications of Botulinum Toxin	Saturday, March 18, 12:00 - 13:00	Clinical Trials and Therapy in Movement Disorders
<b>23</b>	A Planned Comprehensive Physical Therapy In A Case Of Leukodystrophy Presenting As Akinetic Rigid State	Saturday, March 18, 12:00 - 13:00	Clinical Trials and Therapy in Movement Disorders
<b>24</b>	FDG PET brain findings in different phenotypic variants of Progressive Supranuclear Palsy	Saturday, March 18, 12:00 - 13:00	Clinical Trials and Therapy in Movement Disorders

<b>26</b>	Jaw tremor with high doses of ox-carbamazepine	Saturday, March 18, 12:00 - 13:00	Drug-Induced Movement Disorders
<b>27</b>	Trazodone associated reversible parkinsonism	Saturday, March 18, 12:00 - 13:00	Drug-Induced Movement Disorders
<b>28</b>	Lower limb Asterixis: A Novel Sign in Hypercalcemic Encephalopathy Secondary to Vitamin D Toxicity	Saturday, March 18, 12:00 - 13:00	Drug-Induced Movement Disorders
<b>29</b>	Drug induced Parkinsonism: Role of Functional Imaging and follow up	Saturday, March 18, 12:00 - 13:00	Drug-Induced Movement Disorders
<b>32</b>	Arbutin mitigates behavioral and biochemical changes in haloperidol induced Tardive dyskinesia in rodent model	Saturday, March 18, 12:00 - 13:00	Drug-Induced Movement Disorders
<b>33</b>	Clinical and radiological findings of type-III GM1 gangliosidosis in two siblings: a case report	Saturday, March 18, 12:00 - 13:00	Dystonia
<b>34</b>	Dystonia and tonic spasm in multiple sclerosis: a rare occurrence	Saturday, March 18, 12:00 - 13:00	Dystonia
<b>35</b>	Genetic profile in primary dystonia: An experience from a quaternary centre	Saturday, March 18, 12:00 - 13:00	Dystonia
<b>36</b>	Clinical characteristics of different types of cranial dystonia: An observational study .	Saturday, March 18, 12:00 - 13:00	Dystonia
<b>37</b>	A Clinical & Genetic study of Dystonia – Case series on 17 dystonia patients	Saturday, March 18, 12:00 - 13:00	Dystonia
<b>38</b>	Quantitative Analysis Of Neck Muscle Magnetic Resonance Relaxation Times In Cervical Dystonia	Saturday, March 18, 12:00 - 13:00	Dystonia
<b>39</b>	Clinical Presentation And Treatment Options Of Writer’s Cramp In A Tertiary Care Hospital Movement Disorder Clinic	Saturday, March 18, 12:00 - 13:00	Dystonia

<b>40</b>	Immune Mediated (AIE) Movement Disorder Case based approach	Saturday, March 18, 12:00 - 13:00	Education in Movement Disorders
<b>41</b>	The comparative infrastructure of movement disorders education in Thailand, Laos and Vietnam. What's there? What need to be done?	Saturday, March 18, 12:00 - 13:00	Education in Movement Disorders
<b>42</b>	Three cases of Relapse of Anti NMDA receptor encephalitis	Saturday, March 18, 12:00 - 13:00	Education in Movement Disorders
<b>43</b>	Cramp fasciculation syndrome as presenting feature in Primary Sjögren's Syndrome: A rare case report	Saturday, March 18, 12:00 - 13:00	Education in Movement Disorders
<b>44</b>	Are patients with Parkinson's disease in India exercising enough?	Saturday, March 18, 12:00 - 13:00	Education in Movement Disorders
<b>45</b>	Features Of The Course Of Parkinson's Disease, Cultural Aspects In South Kazakhstan Region , The Republic Of Kazakhstan	Saturday, March 18, 12:00 - 13:00	Epidemiology
<b>46</b>	To study the characteristics of primary headache disorders in Parkinson's plus syndrome and compare headache characteristics with those in idiopathic Parkinson's disease and healthy control – an observational study	Saturday, March 18, 12:00 - 13:00	Epidemiology
<b>47</b>	Ambulatory Botulinum Neurotoxin Injections for Dystonia, Spasticity, and Hemifacial Spasms: Predictors of Adherence a Year Before, During, and Late Covid-19 Pandemic	Saturday, March 18, 12:00 - 13:00	Epidemiology
<b>48</b>	The Formation Of Parkinson's Disease In The Early Stages	Saturday, March 18, 12:00 - 13:00	Epidemiology
<b>49</b>	Predictors of Freezing of Gait (FoG) in Parkinson's Disease	Saturday, March 18, 12:00 - 13:00	Epidemiology

<b>50</b>	The case series and review of interesting clinical spectrum of LGI-1 and CASPR-2 autoantibodies from day to night.	Saturday, March 18, 12:00 - 13:00	Epidemiology
<b>52</b>	Genetic investigation of patients with neurodegeneration with brain iron accumulation (NBIA) disorders	Saturday, March 18, 12:00 - 13:00	Genetics (Non-PD)
<b>53</b>	Novel mutations in GRN, SQSTM1 and ADH1C —A case series of familial frontotemporal dementia with parkinsonism	Saturday, March 18, 12:00 - 13:00	Genetics (Non-PD)
<b>54</b>	Whole-genome sequencing identify a novel missense mutation in PCLO gene in Pakistani movement disorder family	Saturday, March 18, 12:00 - 13:00	Genetics (Non-PD)
<b>55</b>	Ferulic acid attenuates 3-nitropropionic acid-induced neuronal toxicity: using in vitro and in vivo experimental models	Saturday, March 18, 12:00 - 13:00	Huntington's Disease
<b>57</b>	A Rare Presentation of Huntington's Disease; Report of a Sri Lankan Teenager with Westphal Variant	Saturday, March 18, 12:00 - 13:00	Huntington's Disease
<b>58</b>	Steroid Responsive Encephalopathy Associated With Autoimmune Thyroiditis (SREAT) : A Rare Presentation With Neuropsychiatric Symptoms	Saturday, March 18, 12:00 - 13:00	Myoclonus
<b>59</b>	The origin and evolution scenarios of the (TTTA) and (TTCA) pentanucleotide repeat expansions at the familial cortical myoclonic tremor with epilepsy type 1 - SAMD12 locus	Saturday, March 18, 12:00 - 13:00	Myoclonus
<b>60</b>	A spectrum of movement disorder in Subacute sclerosing panencephalitis	Saturday, March 18, 12:00 - 13:00	Myoclonus
<b>61</b>	Troublemaker In Tropical Countries-Case Series	Saturday, March 18, 12:00 - 13:00	Myoclonus

<b>62</b>	Opsoclonus myoclonus ataxia syndrome	Saturday, March 18, 12:00 - 13:00	Myoclonus
<b>63</b>	What Factors Contribute to Facial Asymmetry in Hemifacial Spasm Following Botulinum Toxin-A Injections: Disease Itself, Injection Techniques, or Both	Saturday, March 18, 12:00 - 13:00	Myoclonus
<b>64</b>	An Unusual Case of Rapidly Progressive Cognitive Decline and Abnormal Movements	Saturday, March 18, 12:00 - 13:00	Myoclonus
<b>65</b>	Comparison of altered white matter integrity in PSP with Richardson's syndrome and Vascular Parkinsonism: A TBSS study	Saturday, March 18, 12:00 - 13:00	Neuroimaging (Non-PD)
<b>66</b>	Quantitative study of subthalamic nucleus neurons downregulation in Parkinson's disease: Role of ATP-sensitive potassium channels	Saturday, March 18, 12:00 - 13:00	Neuropharmacology
<b>68</b>	Phloroglucinol encased in h-DPSC derived exosomes: a robust formulation targeting Reactive Oxygen Species in Parkinson's Disease evaluated through in vitro and in vivo PD models.	Saturday, March 18, 12:00 - 13:00	Neuropharmacology
<b>69</b>	Early-life exposure to Ambient Particulate Matter (PM2.5) perturbs microglial and astrocyte maturation inducing cognitive decline in the mice hippocampus	Saturday, March 18, 12:00 - 13:00	Neuropharmacology
<b>71</b>	Isolated Deltoid Peristalsis and Review into This Unusual Phenomenology: Myokymia, Myoclonus or a Novel Iterative Discharge?	Saturday, March 18, 12:00 - 13:00	Neurophysiology (Non-PD)
<b>73</b>	Clinical Profile of Patients with Wilson's Disease Attending Tertiary Care Neurology Centre	Saturday, March 18, 12:00 - 13:00	Other

<b>75</b>	Home-Based Telerehabilitation for Functional Mobility in Parkinson's Disease: A Scoping Review	Saturday, March 18, 12:00 - 13:00	Other
<b>76</b>	Phenotypic variability of Subacute Sclerosing Panencephalitis	Saturday, March 18, 12:00 - 13:00	Other
<b>77</b>	Prevalence and Pattern of Movement Disorders in Creutzfeldt Jacob Disease (CJD)	Saturday, March 18, 12:00 - 13:00	Other
<b>78</b>	COVID-19 and neurodegenerative diseases: reciprocal impacts, medical care strategies and underlying mechanisms	Saturday, March 18, 12:00 - 13:00	Other
<b>79</b>	Depression Associated with Hyperkinetic Movement Disorder	Saturday, March 18, 12:00 - 13:00	Other
<b>80</b>	Are Indians Geared Up for the Healthcare Expenses of Ageing Disorders?	Saturday, March 18, 12:00 - 13:00	Other
<b>81</b>	Opsoclonus-Myoclonus-Ataxia-Syndrome as the Initial Presentation of Seroconversion in HIV Infection in an Adult Male: A Case Report and Review of Literature	Saturday, March 18, 12:00 - 13:00	Other
<b>82</b>	Diet Quality and Prodromal Parkinson's Disease Probability in Idiopathic REM Sleep Behavior Disorder	Saturday, March 18, 12:00 - 13:00	Other
<b>83</b>	GAD65 Antibody-related Classical Stiff Person Syndrome: A 12-year single-center experience	Saturday, March 18, 12:00 - 13:00	Other
<b>84</b>	Moving Ear Syndrome In A Young Girl	Saturday, March 18, 12:00 - 13:00	Other
<b>85</b>	Factors associated with Economic Burden of Parkinson's Disease in the Philippines	Saturday, March 18, 12:00 - 13:00	Other
<b>86</b>	Paraneoplastic Neurologic Syndrome Associated with Mucinous Breast Carcinoma: A Rare Case Report	Saturday, March 18, 12:00 - 13:00	Other

<b>87</b>	Phenotyping Parkinson's disease patient neurons derived from induced pluripotent stem cells	Saturday, March 18, 12:00 - 13:00	Other
<b>88</b>	Childhood onset Asian PLA2G6-parkinsonism	Saturday, March 18, 12:00 - 13:00	Rare Genetic and Metabolic Diseases
<b>89</b>	Spectrum of Neurodegeneration with Brain Iron Accumulation: A Case Series from India	Saturday, March 18, 12:00 - 13:00	Rare Genetic and Metabolic Diseases
<b>90</b>	Genetic Diagnosis In A Patient Of Progressive Ataxia With Palatal Tremors	Saturday, March 18, 12:00 - 13:00	Rare Genetic and Metabolic Diseases
<b>91</b>	Longitudinal follow up of a patient with progressive myoclonic variant of chronic neuronopathic Gaucher's disease(nGD) on enzyme replacement therapy (ERT)	Saturday, March 18, 12:00 - 13:00	Rare Genetic and Metabolic Diseases
<b>92</b>	Rare genetic disorders found in tertiary movement disorders clinic south India by using Whole exome sequencing	Saturday, March 18, 12:00 - 13:00	Rare Genetic and Metabolic Diseases
<b>93</b>	Reporting homozygous missense variant (c.2239C>T;p.Arg747Trp) in PLA2G6 gene in an Indian male	Saturday, March 18, 12:00 - 13:00	Rare Genetic and Metabolic Diseases
<b>94</b>	Childhood-onset generalized dystonia due to NDUFA9 gene mutation: An expansion of mutations causing Leigh's syndrome	Saturday, March 18, 12:00 - 13:00	Rare Genetic and Metabolic Diseases
<b>95</b>	Mutations In Tetratricopeptide 19 (TTC19) Gene: Expanding The Clinical, Pathological, And Molecular Phenotype	Saturday, March 18, 12:00 - 13:00	Rare Genetic and Metabolic Diseases
<b>96</b>	TARDBP mutation presenting as "Atypical" atypical Parkinsonism	Saturday, March 18, 12:00 - 13:00	Rare Genetic and Metabolic Diseases
<b>97</b>	Seizures In Wilson's Disease: A Rare Entity	Saturday, March 18, 12:00 - 13:00	Rare Genetic and Metabolic Diseases
<b>98</b>	A Probable Case of Beta-Propeller Protein-Associated Neurodegeneration (BPAN): A First Case Report in Thailand	Saturday, March 18, 12:00 - 13:00	Rare Genetic and Metabolic Diseases

<b>99</b>	Movement disorder in children with SSADH deficiency	Saturday, March 18, 12:00 - 13:00	Rare Genetic and Metabolic Diseases
<b>100</b>	Treatable Cause Of Paroxysmal Dyskinesia: Not To Be Missed	Saturday, March 18, 12:00 - 13:00	Rare Genetic and Metabolic Diseases
<b>101</b>	Treatment for PLA2G6-related Parkinsonism: A case series	Saturday, March 18, 12:00 - 13:00	Rare Genetic and Metabolic Diseases
<b>102</b>	Medication Satisfaction Survey in a Unique Cohort PD Patients Shifted from L-dopa+Carbidopa to L-dopa+Benserazide	Sunday, March 19, 12:00 - 13:00	Parkinson's Disease: Clinical Trials, Pharmacology and Treatment
<b>103</b>	Chronic intraperitoneal injections of L-theanine potentiates dopamine release in the striatum of Parkinsonian mice and improves psychomotor symptoms	Sunday, March 19, 12:00 - 13:00	Parkinson's Disease: Clinical Trials, Pharmacology and Treatment
<b>104</b>	Is India ready for Continuous Subcutaneous Apomorphine Infusion for Parkinson's Disease	Sunday, March 19, 12:00 - 13:00	Parkinson's Disease: Clinical Trials, Pharmacology and Treatment
<b>105</b>	COVID-19 vaccination side effects and related worsening PD symptoms in Parkinson's disease patients: the online survey	Sunday, March 19, 12:00 - 13:00	Parkinson's Disease: Clinical Trials, Pharmacology and Treatment
<b>106</b>	Exploring the Mitophagy inducing ability of neuroprotective Indian medicinal herbs via targeting ROCK2	Sunday, March 19, 12:00 - 13:00	Parkinson's Disease: Clinical Trials, Pharmacology and Treatment
<b>107</b>	From the evidence to the dish: Systematic Reviews of Mediterranean Diet and Parkinson's disease and How To Implement A Thai-style Mediterranean diet in Thailand	Sunday, March 19, 12:00 - 13:00	Parkinson's Disease: Clinical Trials, Pharmacology and Treatment
<b>108</b>	Investigating neuroprotective effect of Moringa Oleifera against rotenone induced animal model of Parkinson's disease	Sunday, March 19, 12:00 - 13:00	Parkinson's Disease: Clinical Trials, Pharmacology and Treatment

<b>109</b>	Comparison of LSVRT Therapy and Conventional training on Walking Capacity, and Stair Ambulation among people living with Parkinson Disease: A Parallel Pretest-Posttest Study	Sunday, March 19, 12:00 - 13:00	Parkinson's Disease: Clinical Trials, Pharmacology and Treatment
<b>110</b>	Are we ready for computerised testing of patients with Parkinson's disease? An Indian perspective	Sunday, March 19, 12:00 - 13:00	Parkinson's Disease: Cognition
<b>111</b>	Parkinson's Disease Awareness Among Medical Professionals In Kazakhstan	Sunday, March 19, 12:00 - 13:00	Parkinson's Disease: Cognition
<b>112</b>	Reflexes & muscle strength on reaction timings of finger tapping in Parkinson's disease.	Sunday, March 19, 12:00 - 13:00	Parkinson's Disease: Cognition
<b>113</b>	Insight into the changes in the proteome of Parkinson's disease-associated cognitive impairment and dementia	Sunday, March 19, 12:00 - 13:00	Parkinson's Disease: Cognition
<b>114</b>	Building research capacity through training in the Global Parkinson's Genetics Program (GP2)	Sunday, March 19, 12:00 - 13:00	Parkinson's Disease: Genetics
<b>115</b>	Polygenic risk score of Alzheimer's disease is associated with dementia in Parkinson's disease.	Sunday, March 19, 12:00 - 13:00	Parkinson's Disease: Genetics
<b>117</b>	Hereditary And Geneological Characteristics Of Parkinson's Disease Depending On The Clinical Forms	Sunday, March 19, 12:00 - 13:00	Parkinson's Disease: Genetics
<b>118</b>	Exploring Vitamin D as a NOS inhibitor in Parkinson's Disease using in-silico methodologies	Sunday, March 19, 12:00 - 13:00	Parkinson's Disease: Genetics
<b>120</b>	Genetic Mutation Analysis of Patients with Parkinson's Disease Patients Using Exome Analysis: A Case Series from a Tertiary Care Hospital	Sunday, March 19, 12:00 - 13:00	Parkinson's Disease: Genetics

<b>121</b>	Structural correlates in patients of Parkinson's disease and Impulse control disorders	Sunday, March 19, 12:00 - 13:00	Parkinson's Disease: Neuroimaging and Neurophysiology
<b>122</b>	Rest and action tremors differently associate with monoaminergic degeneration in de novo Parkinson's Disease patients	Sunday, March 19, 12:00 - 13:00	Parkinson's Disease: Neuroimaging and Neurophysiology
<b>123</b>	Factors Related to Freezing of Gait in Patients with Parkinson's Disease- A Comparative Study	Sunday, March 19, 12:00 - 13:00	Parkinson's Disease: Neuroimaging and Neurophysiology
<b>124</b>	Vestibular Evoked Myogenic Potential in Parkinson disease	Sunday, March 19, 12:00 - 13:00	Parkinson's Disease: Neuroimaging and Neurophysiology
<b>125</b>	How rhythm reproduction estimated through an upper body task is affected in patients with Lower Body Parkinsonism?	Sunday, March 19, 12:00 - 13:00	Parkinson's Disease: Neuroimaging and Neurophysiology
<b>126</b>	Temporal production and reproduction abilities in Parkinson's Disease	Sunday, March 19, 12:00 - 13:00	Parkinson's Disease: Neuroimaging and Neurophysiology
<b>127</b>	Dopaminergic Transporter Imaging With Tc-99m TRODAT-1 Spect Scan in the Diagnostic Evaluation of Early Onset Parkinsons Disease	Sunday, March 19, 12:00 - 13:00	Parkinson's Disease: Neuroimaging and Neurophysiology
<b>128</b>	Basal ganglia shape in de novo Parkinson's disease patients can predict onset of Levodopa Induced Dyskinesias	Sunday, March 19, 12:00 - 13:00	Parkinson's Disease: Neuroimaging and Neurophysiology
<b>129</b>	Dopaminergic and serotonergic interaction affects ocular motor abnormalities in de novo Parkinson's disease	Sunday, March 19, 12:00 - 13:00	Parkinson's Disease: Neuroimaging and Neurophysiology
<b>131</b>	Visual dysfunction in Parkinson's disease	Sunday, March 19, 12:00 - 13:00	Parkinson's Disease: Non-Motor Symptoms
<b>132</b>	A study on spectrum of sexual dysfunction in young onset Parkinson's disease patients in a tertiary care from eastern India.	Sunday, March 19, 12:00 - 13:00	Parkinson's Disease: Non-Motor Symptoms
<b>133</b>	The Time Perception and Production Abilities in Parkinson's Disease.	Sunday, March 19, 12:00 - 13:00	Parkinson's Disease: Non-Motor Symptoms

<b>134</b>	GIT Dysfunction in Parkinsons Disease	Sunday, March 19, 12:00 - 13:00	Parkinson's Disease: Non-Motor Symptoms
<b>135</b>	Study Of Sexual Dysfunction In Men With Young Onset Parkinson's Disease	Sunday, March 19, 12:00 - 13:00	Parkinson's Disease: Non-Motor Symptoms
<b>136</b>	Assessment Of Sexual Dysfunction In Patients With Young Onset Parkinsons Disease:A Case Control Study	Sunday, March 19, 12:00 - 13:00	Parkinson's Disease: Non-Motor Symptoms
<b>137</b>	Nocturia characteristics and factors associated in Parkinson's disease (PD): the telephone survey	Sunday, March 19, 12:00 - 13:00	Parkinson's Disease: Non-Motor Symptoms
<b>138</b>	The nutritional status of elderly Chinese patients with Parkinson's disease : a cross-sectional study	Sunday, March 19, 12:00 - 13:00	Parkinson's Disease: Non-Motor Symptoms
<b>139</b>	Association of serum homocysteine level with Parkinson's disease	Sunday, March 19, 12:00 - 13:00	Parkinson's Disease: Pathophysiology
<b>140</b>	Physiological level of melatonin and its role on pathophysiological processes in Parkinson's disease: evidences from experimental parkinsonism and Parkinson's disease patient population	Sunday, March 19, 12:00 - 13:00	Parkinson's Disease: Pathophysiology
<b>141</b>	Rotenone-induced $\alpha$ -syn aggregation promotes mitochondrial dysfunction via Parkin/Pink1 signaling in SNpc region: Implication for PD pathology	Sunday, March 19, 12:00 - 13:00	Parkinson's Disease: Pathophysiology
<b>142</b>	Glial neutrophic factor as a nonspecific factor in the progression of Parkinson's disease	Sunday, March 19, 12:00 - 13:00	Parkinson's Disease: Pathophysiology
<b>143</b>	Influence of WT and A53T alpha-synuclein overexpression in SH-SY5Y and DA neurons derived from iPSCs on its intracellular calcium response its related toolkit and on membrane fluidity	Sunday, March 19, 12:00 - 13:00	Parkinson's Disease: Pathophysiology

<b>144</b>	Proteolytic defects in cultured astrocytes treated extracellularly with alpha-synuclein and consequent impairment in neuron-glia crosstalk	Sunday, March 19, 12:00 - 13:00	Parkinson's Disease: Pathophysiology
<b>145</b>	A study with high-density head-worn (wired and wireless) EEG Electrodes and minimally invasive deep brain stimulators in Parkinson's	Sunday, March 19, 12:00 - 13:00	Parkinson's Disease: Pathophysiology
<b>146</b>	Microelectrode recording with stn-dbs using machine learning techniques for smart closed-loop adaptive dbs devices	Sunday, March 19, 12:00 - 13:00	Parkinson's Disease: Pathophysiology
<b>147</b>	Mitochondria-Lysosome Crosstalk in GBA1-associated Parkinson's disease: A Novel Therapeutic Strategy of Re-tasking Felodipine	Sunday, March 19, 12:00 - 13:00	Parkinson's Disease: Pathophysiology
<b>148</b>	Study on salivary oxidative stress markers in Parkinson's disease.	Sunday, March 19, 12:00 - 13:00	Parkinson's Disease: Pathophysiology
<b>149</b>	Levodopa Induced Dyskinesia – Plausible Inflammatory and Oxidative Stress Biomarkers	Sunday, March 19, 12:00 - 13:00	Parkinson's Disease: Pathophysiology
<b>150</b>	Functional analysis of Parkinson's disease using computational simulation statistical models and systems control theory	Sunday, March 19, 12:00 - 13:00	Parkinson's Disease: Pathophysiology
<b>152</b>	To Study The Spectrum Of Sleep Dysfunction Across The Atypical Parkinsonian Disorders And Parkinson's Disease	Sunday, March 19, 12:00 - 13:00	Parkinsonism, MSA, PSP (Secondary and Parkinsonism-Plus)
<b>153</b>	Evidence towards a pathogenic role of Th17 immuno-inflammatory pathway in Progressive Supranuclear palsy (PSP)	Sunday, March 19, 12:00 - 13:00	Parkinsonism, MSA, PSP (Secondary and Parkinsonism-Plus)
<b>154</b>	Prospective Characterization of Progressive Supranuclear Palsy in a Multi-Ethnic Asian Cohort	Sunday, March 19, 12:00 - 13:00	Parkinsonism, MSA, PSP (Secondary and Parkinsonism-Plus)

<b>155</b>	Glycine receptor antibody associated PERM with nigrostriatal dopamine loss and levodopa responsiveness	Sunday, March 19, 12:00 - 13:00	Parkinsonism, MSA, PSP (Secondary and Parkinsonism-Plus)
<b>156</b>	The plasma biomarkers of microRNA for the diagnosis of MSA- a pathogenesis study in a cellular model	Sunday, March 19, 12:00 - 13:00	Parkinsonism, MSA, PSP (Secondary and Parkinsonism-Plus)
<b>157</b>	Acute Catatonia and Akinetic Rigid Syndrome as a Manifestation of Intermediate Syndrome of Organo-Phosphate Poisoning	Sunday, March 19, 12:00 - 13:00	Parkinsonism, MSA, PSP (Secondary and Parkinsonism-Plus)
<b>158</b>	Using heel elevation to prevent backwards falls in patients with progressive supranuclear palsy	Sunday, March 19, 12:00 - 13:00	Parkinsonism, MSA, PSP (Secondary and Parkinsonism-Plus)
<b>159</b>	A Comparative Analysis of Dysarthria in Patients with Parkinson's Disease and Parkinson plus syndromes.	Sunday, March 19, 12:00 - 13:00	Parkinsonism, MSA, PSP (Secondary and Parkinsonism-Plus)
<b>160</b>	Disability and neurorehabilitation needs in people with Parkinson-plus syndrome: A case series	Sunday, March 19, 12:00 - 13:00	Parkinsonism, MSA, PSP (Secondary and Parkinsonism-Plus)
<b>161</b>	Reversible parkinsonism post combined infection with COVID-19 and typhoid	Sunday, March 19, 12:00 - 13:00	Parkinsonism, MSA, PSP (Secondary and Parkinsonism-Plus)
<b>162</b>	Retinal Thinning as a Marker of Disease Severity in Progressive Supranuclear Palsy	Sunday, March 19, 12:00 - 13:00	Parkinsonism, MSA, PSP (Secondary and Parkinsonism-Plus)
<b>163</b>	Tau -PET Imaging Findings in Progressive Supranuclear Palsy with Predominant Cerebellar Ataxia	Sunday, March 19, 12:00 - 13:00	Parkinsonism, MSA, PSP (Secondary and Parkinsonism-Plus)
<b>164</b>	Underlying sensorimotor disintegration in patients with Functional Movement Disorders- A TMS study	Sunday, March 19, 12:00 - 13:00	Pathophysiology (Other Movement Disorders)
<b>165</b>	Hyperkinetic movement disorder following Covid-19 Temporal correlation or Coincidental	Sunday, March 19, 12:00 - 13:00	Pathophysiology (Other Movement Disorders)

<b>166</b>	Paroxysmal kinesogenic dyskinesia with behavioral symptoms and oculogyric crisis: never reported before	Sunday, March 19, 12:00 - 13:00	Pediatric Movement Disorders
<b>167</b>	A Unique Case of SCA-2 having concomitant Ataxia and ALS like features	Sunday, March 19, 12:00 - 13:00	Phenomenology and Clinical Assessment of Movement Disorders
<b>168</b>	A Rare yet Treatable cause of Paroxysmal Kinesigenic Dyskinesia	Sunday, March 19, 12:00 - 13:00	Phenomenology and Clinical Assessment of Movement Disorders
<b>169</b>	The Spectrum Of Post Encephalitic Movement Disorders- A Case Series	Sunday, March 19, 12:00 - 13:00	Phenomenology and Clinical Assessment of Movement Disorders
<b>170</b>	Differences in Impaired Finger Dexterity Between Subtypes of Early Parkinson's Disease	Sunday, March 19, 12:00 - 13:00	Phenomenology and Clinical Assessment of Movement Disorders
<b>172</b>	Awareness and implications of COVID-19 Omicron variant in patients with Parkinson's disease and their caregivers: A cross-sectional study	Sunday, March 19, 12:00 - 13:00	Quality of Life/Caregiver Burden in Movement Disorders
<b>173</b>	A "PD smile bag" can Improve Quality of Life for Parkinson's Disease Patients	Sunday, March 19, 12:00 - 13:00	Quality of Life/Caregiver Burden in Movement Disorders
<b>174</b>	Psychosocial Correlates of well-being among People with Young Onset Parkinson's Disease	Sunday, March 19, 12:00 - 13:00	Quality of Life/Caregiver Burden in Movement Disorders
<b>175</b>	The development of home modification book for people with Parkinson's disease based on the multidisciplinary home modification knowledge.	Sunday, March 19, 12:00 - 13:00	Quality of Life/Caregiver Burden in Movement Disorders
<b>176</b>	Falls and Outcome in the Quality of Life of Patients with Parkinson's Disease in a Single Center, A Retrospective Cross Sectional Study	Sunday, March 19, 12:00 - 13:00	Quality of Life/Caregiver Burden in Movement Disorders
<b>177</b>	A double-blind, randomized, controlled trial to study the effectiveness of structured exercises on the quality of life in early-stage Parkinson's disease	Sunday, March 19, 12:00 - 13:00	Quality of Life/Caregiver Burden in Movement Disorders

<b>178</b>	Restless limb syndrome and insomnia are common yet under-recognised comorbidities in patients with migraine in rural India	Sunday, March 19, 12:00 - 13:00	Restless Legs Syndrome and Other Sleep Disorders
<b>179</b>	Spectrum of patients with dream enactment behavior and its relation with idiopathic REM sleep behavior disorder	Sunday, March 19, 12:00 - 13:00	Restless Legs Syndrome and Other Sleep Disorders
<b>180</b>	Restless legs syndrome with abnormal chest sensations: a case report	Sunday, March 19, 12:00 - 13:00	Restless Legs Syndrome and Other Sleep Disorders
<b>181</b>	Bickerstaff's Brainstem Encephalitis Presenting as Spastic Paraparesis	Sunday, March 19, 12:00 - 13:00	Spasticity
<b>182</b>	Primary Lateral Sclerosis: A Rare Case Report	Sunday, March 19, 12:00 - 13:00	Spasticity
<b>183</b>	Posterior Subthalamic Area as rescue target for tremor: Aligning thalamus and posterior subthalamic area in a single trajectory	Sunday, March 19, 12:00 - 13:00	Surgical Therapy: Other Movement Disorders Technology
<b>184</b>	Synergistic use of O arm and microelectrode recording improves safety and accuracy when compared to either of the two modalities: experience of twenty surgeries	Sunday, March 19, 12:00 - 13:00	Surgical Therapy: Other Movement Disorders Technology
<b>185</b>	Clinical outcome after pallidal surgery for secondary generalised dystonia.	Sunday, March 19, 12:00 - 13:00	Surgical Therapy: Other Movement Disorders Technology
<b>186</b>	Single-Center Experience of Deep Brain Stimulation (DBS) Surgery at a Quaternary Hospital in Malaysia: Retrospective Chart Review	Sunday, March 19, 12:00 - 13:00	Surgical Therapy: Parkinson's Disease
<b>187</b>	Deep Brain Stimulation for Motor Complications of Parkinson's disease-considerations in a resource-poor setting	Sunday, March 19, 12:00 - 13:00	Surgical Therapy: Parkinson's Disease

<b>188</b>	Establishing First Comprehensive Deep Brain Stimulation center in United Arab Emirates: challenges and initial experience	Sunday, March 19, 12:00 - 13:00	Surgical Therapy: Parkinson's Disease
<b>189</b>	Revision of Electrode position in patients with Parkinson's Disease; Does location really matter?	Sunday, March 19, 12:00 - 13:00	Surgical Therapy: Parkinson's Disease
<b>190</b>	Feasibility of a novel motion tracking system for quantification of reaching task in patients with movement disorders	Sunday, March 19, 12:00 - 13:00	Technology in Movement Disorders
<b>191</b>	Feasibility of a low-cost motion-tracking system as a clinical tool in movement disorder	Sunday, March 19, 12:00 - 13:00	Technology in Movement Disorders
<b>192</b>	Prediction of Freezing of Gait in Parkinson's Disease: An Insight from Convolutional Neural Network	Sunday, March 19, 12:00 - 13:00	Technology in Movement Disorders
<b>193</b>	Parkinson movement and motor Control using mer with stn-dbs analysis through machine learning techniques	Sunday, March 19, 12:00 - 13:00	Technology in Movement Disorders
<b>194</b>	Analysis of Parkinson's disease using computational simulation and functional mathematical techniques	Sunday, March 19, 12:00 - 13:00	Technology in Movement Disorders
<b>195</b>	Machine learning approaches to differentiate Essential tremor and Essential tremor plus	Sunday, March 19, 12:00 - 13:00	Tremor
<b>196</b>	West Nile Neuroinvasive Disease spectrum –A Case Report	Sunday, March 19, 12:00 - 13:00	Tremor
<b>197</b>	Clinical and Electrophysiological characterization of Essential tremor plus subclasses	Sunday, March 19, 12:00 - 13:00	Tremor
<b>198</b>	Post-stroke Holmes tremor: A detailed analysis of semiology, clinico-radiological correlation and therapeutic response with an attempted insight into pathophysiology	Sunday, March 19, 12:00 - 13:00	Tremor

<b>199</b>	Prevalence and clinical types of tremors in multiple sclerosis and associated disability: A Systematic Review	Sunday, March 19, 12:00 - 13:00	Tremor
<b>200</b>	Network-based statistics of the tremor network in tremor dominant Parkinson's disease and Essential tremor plus syndrome	Sunday, March 19, 12:00 - 13:00	Tremor
<b>201</b>	Characterization Of Sleep Abnormalities In Essential Tremor And Essential Tremor Plus.	Sunday, March 19, 12:00 - 13:00	Tremor
<b>203</b>	Characterizing essential tremor and dystonic tremor using 3D accelerometry analysis	Sunday, March 19, 12:00 - 13:00	Tremor
<b>204</b>	Phenomenology of an unusual Head Tremor	Sunday, March 19, 12:00 - 13:00	Tremor
